This female is sired by TJF MR SON OF A GUN 155/3, and while we have already talked about the greatness of this excellent herd sire that combines phenotype and genotype, the most important thing is that he has been able to inherit these aspects to his offspring! Her dam is MISS ROJAS 233, whose genetic line speaks for itself. She is a +MR WINCHESTER MAGNUM 999 daughter, and this cow left a great legacy in Ganadería Las Huastecas. As a cow with excellent breed characteristics, she was constantly producing a calf per year, showing her great fertility and excellent maternal performance. Just look at this female and admire all her outstanding characteristics, she is a complete package of genotype and phenotype!

PCC LADY ANTONIA 153/8

This is a female that comes from a very prominent genetic line. She was bred with the purpose of creating something very special by combining these two bloodlines. Sired by +BB BRONSON 299/3, a famous bull, winning multiple championships in the show ring. Her dam is PCC MISS HUASTECA 80/3, a cow that has had much success producing champions in Mexico.

This is the genetic explosion that we obtained: a female that exemplifies the ideal characteristics of the Brahman breed, structurally correct, loads of muscle and fluidity on the move. She is a reliable donor and very feminine. She is the complete package!

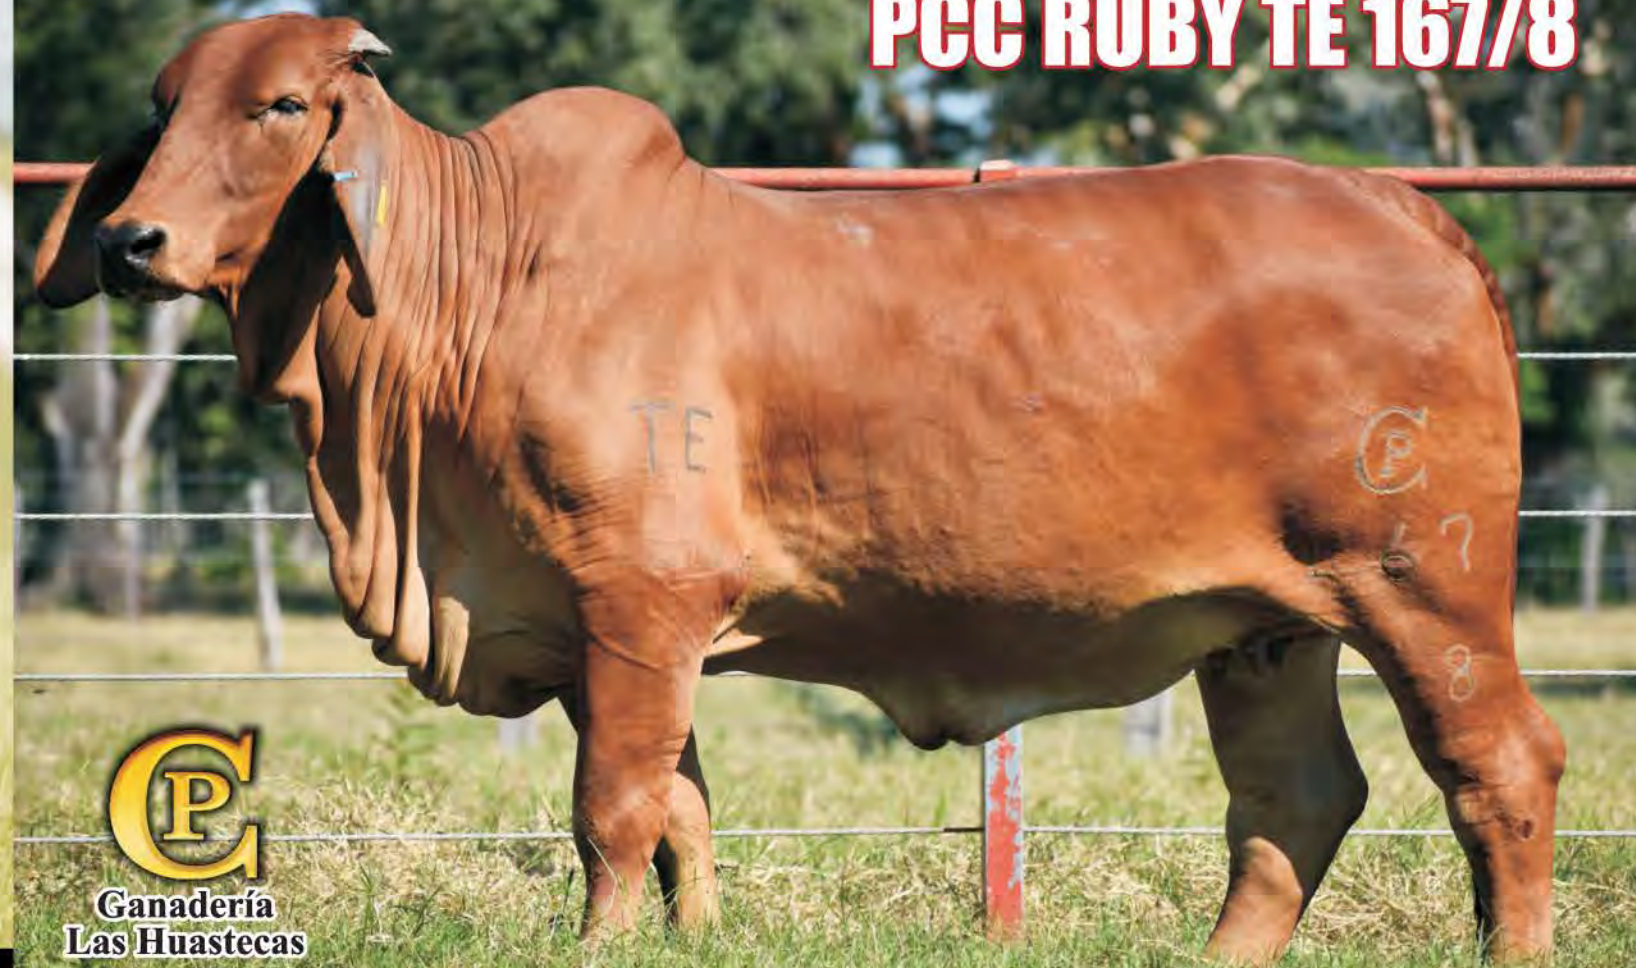

CHAMPIONSHIPS

- 2019 Mexico National Show Calf Champion
- 2020 Jalisco Joven Mayor Champion
- 2020 Jalisco Grand Champion
- 2021 Mexico National Show Adulta Champion
- 2021 Mexico National Show Grand Champion

PCC RUBY TE 167/8

PCC RUBY TE 167/8. is a donor we are very excited about! We are very much looking forward to her offspring and the great results that we will have from her. Her genetic line is of great value, she's a daughter of 3X-HK ARQUITECTO 920. A bull with one of the biggest reputations in the Red Brahman breed around the world for producing champions. Her dam PCC MISS 4/1 is an iconic cow bred in Ganadería Las Huastecas. Throughout her life she has shown great fertility and excellent results in crosses with different genetic lines. She won Progenie in 2017, and in that same year she produced the National Grand Champion Red Female in Mexico. Then in 2021 her son 184/9 was crowned the Grand Champion Red Bull in Mexico!
